** IMPORTANT NOTE FROM EDITOR (By KB8NW): Over the next 3 weeks, there will either be no bulletin or an abbreviated bulletin because I will be traveling on holiday. There will not be an OPDX Bulletin next week as I will be attending the Day-Xenia HamVention. The following weeks, I will be in either Murfreesboro, TN, or Panama City Beach, FL. As always, "IF" I receive a major announcement, I will probably send out a special bulletin. However, PLEASE continue to send your DX information. You never know what I might do....
I hope to see you at the Day-Xenia HamVention or the NODXA Hospitality Suite!.... 73 de Tedd KB8NW

It is also permitted to use the "/70" suffix with the "2Q/GQ/MQ" prefix if desired throughout the month June.

Paul states, "QSL 3A/F6EXV, 3A/PB8DX and 3A6M via F6EXV on ClubLog. Please do not send your card, only use ClubLog. QSL via ClubLog for direct or Bureau. LoTW will be uploaded in full 6 months after the operation."

<https://www.youtube.com/watch?v=JRUdLWqZGhM&t=20s>

- * Ken Opskar, LA7GIA, Co-Leader of 3Y0J, posted the following update on the vessel Marama (with pictures) on the 3Y0J Bouvet Island Facebook page at: <https://www.facebook.com/groups/3093983840726129>

4T, PERU. Tony, OA4DX, will be active as 4T4T from Lima during the CQWW WPX CW Contest (May 28-29th) as a Single-Op/Single-Band entry. QSL via OA4DX.

5J0/5K0, SAN ANDRES ISLAND (Update). Members of the Grupo Yaguarete DX will once again be active as 5K0T and 5J0DX from San Andres Island (NA-033) between September 16-26th. Operators mentioned are Joe/LU1FM, Daniel/LU9FHF and Pablo/LU7MT. No other details were released at this time, but activity will "probably" be on 80-10 meters, using CW, SSB, Digital modes (PSK31 and FT8) and possibly the Satellites. QSL via LU1FM.

8N650, JAPAN (Special Event). To celebrate the 50th anniversary of the "Reversion of OKINAWA to JAPAN", special event station 8N650JP is now active until September 30th. QSL via Bureau.

9M22, WEST MALAYSIA. Look for special event callsign 9M22DX to be active from West Malaysia between June 1-30th. Activity is to promote Summits on the Air (SOTA) and DX. Operator Hilmi/9M2CDX, Afiz/9M2KDX, Wan/9W2EYR, Jalee/9W2VGR, Herry/9W2HXP, Mohd/9W2KVV, Mohd/9M2JDX, Khairil/9W2WPZ, Dahlan/9M2LAN and Abdul/9W2DQM will use this callsign between June 3-5th from the Bukit Perangin summit. Activity will be on various HF bands and modes. Equipment will be an IC-7300, FT897D, HF multiband G5RV, solar equipment, battery and power supply. The event will continue as DX between June 6-30th as Malaysia DX 2022 station. QSL 9M22DX via 9M2CDX direct or ClubLog.

9N, NEPAL. Robert, S53R/9N7AA, posted the following, May 14th, on QRZ.com: [edited] "QRM continues to be prohibitive for any normal CW/SSB on 20m inclusive and below, where even FT8 struggles with signals heavily plagued by the local interference/QRM. Higher bands are surprisingly good and 6m started showing some life. For the time being, only Asia and the Western part of the Pacific have been heard/worked. Most of the activity is on CW and occasionally some SSB, but I've started doing some RTTY again, which is great fun and requires operator skills and interaction, as opposed to utterly boring and unchallenging, yet I must admit very useful FT8/FT4 modes. The license has been renewed and extended until May 2023. Please note that 60m band is not permitted in Nepal. QSL via S57DX, direct only, and of course, LoTW and ClubLog will be updated at least once a week. Please use s57dx@yahoo.com for PayPal requests and will try to set up the OQRS soon. Last but not least - NO Flags, QRZ.COM log, eQSL, etc.."

C5, THE GAMBIA (Reminder). Operators Gérard/F5NVF, Abdel/M0NPT (7X2TT) and Luc/F5RAV will once again be active as C5C from Kololi (WW Loc. IK13PK), The Gambia, between May 23rd and June 10th. The team also hopes to be active again from Bijol Island (AF-060) as C5B. Activity will be on 80-6 meters, including 60m, using CW, SSB, FT8/FT4 and the QO-100 satellite. QSL via F5RAV, direct, eQSL or LoTW. The trio has also included a "Go Fund Me" page (<https://gofund.me/6ad9d75d>) for their operation which was started by Zorro, JH1AJT/SK, to help improvements, living conditions and the local village school. See the Web page to see more details.

CY0S SABLE ISLAND DXPEDITION NEWS (Press Release, dated May 13th). [edited] "As announced previously, the 2022 Sable Island CY0S DXpedition has been formally approved for this October/November. As soon as the exact dates are determined by Parks Canada, we will release them to the DX community. Parks Canada is extremely busy with maintenance projects which have priority. Environment Canada completely automated their Sable weather station in 2019 so they no longer have personnel on the island. As planning continues, the CY0S team faces significant costs. This is by far the most expensive CY0 DXpedition ever. The budget for this DXpedition is 65,000 USDs. The team will charter the Sable Aviation fixed wing aircraft as well as the Vision Air Sikorsky SK-76 helicopter. The team will require

two round trip flights with Sable Aviation and two round trip flights with Vision Air. These charters are at a very significant cost. Additionally, Parks Canada charges for the use of the Visitor Quarters next to the Sable Station. The team members have committed to paying a minimum of 50% of the cost of the DXpedition. Currently, our fund raising is just starting to ramp up. We encourage DX'ers worldwide who need Sable Island to support our efforts. It's been a long six years with trying to make this DXpedition a reality. The team has had to overcome many obstacles. Donations can be made directly from our website. Thanks in advance!"

Please visit the 3Y0J Bouvet DXpedition team booth# 1508, next to our Premium Sponsor DX Engineering! On Sunday, at 10:30AM in the Forums Room # 4, there will be a 3Y0J presentation. Lots of cool stuff, prizes and a few surprises...

Meet our team members Adrian/KO8SCA, Dave/WD5COV, Otis/NP4G and Pete/N0FW. (<https://www.facebook.com/groups/3093983840726129>)

- * (Reminder) DAY-XENIA HAMVENTION DX HOSPITALITY SUITE. The Northern Ohio DX Association will once again sponsor a Hospitality Suite (24th year) at this year's Day-Xenia HamVention. It will be in Suite 1011 on the 10th floor of the Radisson Hotel Dayton Convention Center (formally known as the Crowne Plaza Hotel) on Thursday, Friday and Saturday evenings (Look for signs!). All DXers/Contesters are welcome. Munchies and refreshments will be available. Come and meet the members and friends of NODXA.

EUDXF NEWS. The European DX Foundation (EUDXF) reports on May 11th: 4U1ITU back on the air (By PB2T).... You may have worked 4U1ITU recently or you may have seen some 4U1ITU cluster spots. The operation is real and the station will be on the air until 3 June. After a two year lock down, the ITU building in Geneva is back in business. Currently a series of meetings of Study Group 4 (satellites) and 5 (terrestrial and amateur) Working Parties takes place.

The two year lockdown has not been good for equipment and antennas. Lots of technical issues had/have to be solved. As it looks now (but we have to wait and see) 4U1ITU can operate on WARC bands with dipole fixed NW/SE and use the STEPP-IR on 40/20/15/10. A second radio is now being set up for 6 meters including FT8.

This activity will most likely be the last one before the reconstruction of the ITU building starting by the end of the year. The shack will be closed soon for several years. It is recommended to fill empty bandslots now.

FM, MARTINIQUE. Gerd, DL7VOG, is once again active as FM/DL7VOG from Les Trois-Îlets, Martinique (NA-107) until May 24th. Activity will be holiday style on various HF bands using CW, RTTY and FT8 with some SSB "upon request". QSNs show he has been on 40/20/10 meters using FT8. QSL via ClubLog's OQRS (preferred) or by his home callsign (direct or by the Bureau).

FT4/X, KERGUELEN ISLAND (Update). The Les Nouvelles DX reports that Arthur, FT4XW, has found a location for his equipment and he still has to find a place to install his inverted V. As reported in December, Arthur is totally new to ham radio, and is currently working on the Kerguelen Islands at Port-aux-Francais on a scientific mission as an electronic engineer. He has been there since October, and will be there until December 2022. He states that he has a XIEGU G90 and a DX Commander SOTA/POTA vertical antenna. QSL via F6EXV, either direct (standard procedures) or by the Bureau. LoTW will be uploaded 6 months after the end of operation. As of May 12th, there has been only one QSNs reported since the beginning of the year.

HH18, HAITI (Correction/Special Event). Members of the Radio Club D'Haiti will be activating the special callsign HH18MAI from Port-au-Prince between May 18-23rd. Activity is to commemorate Haiti's "Flag Day" (May 18th) and Catherine Flon, who was a Haitian seamstress, patriot and national heroine that sewed Haitian's first flag of the independence as a republic (1803). QSL via N200 only (not W3HNNK) or ClubLog.

INDEXA NEWS (Press Release, dated May 8th). INDEXA Board member Franz Langner, DJ9ZB "SK" -- INDEXA is sad to announce that long time INDEXA Board member Franz Langner, DJ9ZB, became a silent key yesterday (May 7). He was 80 years old. Franz has been an active DXer and DXpeditioner for many years. His valued input during his time on the INDEXA Board of Directors has proved invaluable to the success of our organization. More to follow as we learn more. RIP Franz! We will miss you dearly.

Activity will be on 40-10 meters (80m if space allows) using CW, SSB and FT8. Suggested frequencies are:
 CW - 3530, 7030, 10115, 14040, 18098, 21040, 24920 and 28040
 SSB - 7055 14260, 18128, 21260, 24950 and 28460 kHz
 They will have 2-3 stations running simultaneously. QSL via

LoTW and E21EIC. QSL cards will automatically be sent to all successful QSOs via the Bureau.

- AS-200. Take, JI3DST, will once again be active as JI3DST/5 (mainly for DX and 6m Multi-Hop) [not used, JI3DST/P for FT8], JJ5RBH (mainly for DX and JA) [without /P or /5, Fix QTH] and JS6RRR/5 (mainly for JA, JS8RRR/P for FT8) from Shodo Island (Shikoku's Coastal Islands) between 0700z, May 15th, and 0000z, July 4th. Operation may vary due to heavy rain or other conditions. Activity will be on 80/40/30/20/17/15/12/10/6/2m meters (and 70cm) using CW, SSB and FT8 (possibly FM/RTTY). QSL JI3DST/5 via ClubLog's OQRS, LoTW, direct or by the Bureau*. QSL JJ5RBH via ClubLog, LoTW or Bureau*. QSL JS8RRR/5 via ClubLog, LoTW or Bureau*. *NO need to request by OQRS.
- EU-032. The Les Nouvelles DX reports that Marc, F6HQP, will be active from the Island of Oléron (DIFM AT025) between May 20-25th. Depending on the weather and the tides, Marc will also try to activate (non-IOTAs) Nole Island (DIFM AT123) and Madame Island (DIFM AT024). Times will be posted on his QRZ.com page the day before. Activity will be mainly on 40/20 meters using SSB. QSL via the Bureau.
- EU-045. Alessandro, IU3EDK, will be active as IB0V from Ventotene Island during the RSGB IOTA Contest (July 30-31st). Activity will be holiday style and there may be operations before and after the contest. QSL via IU3EDK, direct or by the Bureau.

- EU-052. Phil, G7BZD, is hoping to be active as SV8/G7BZD from Corfu between May 31st and June 11th. Mainly operating while beach-side, activity will be on 40-10 meters (more likely to be 20m) using an Elecraft KX2 (w/10w) into a wire antenna. QSL via eQSL or LoTW. NO paper QSLs.

- NA-085. Bruce, K5TEN, who usually activates Dog Island (WW. Loc EL79) every year in June as K4D, will be active this year between May 16th and 26th. Dog Island (USI FL005S, WW Loc.EL79), Florida, is an extremely rare IOTA because access is controlled by the 25 or so homeowners on the island. There are no hams on the island, and the only activations have been done by Bruce over the last 9 years. Access is by permission only and permission by one of the homeowners. It is only accessible by private charter or single engine fixed wing aircraft and by charter boat. The airstrip is overgrown so private charter is the only real choice. There are no streets, roads, stop signs, trendy cafes, or beach-front bars. If you need it, you bring it. This year's activity will only be on 40-6 meters primarily on CW, SSB, FM, using 100 watts an ICOM 7100 into an off center fed dipole. Suggested frequencies are:
CW - 7027.5, 7110, 10110, 14027.5, 21027.5 and 28010 kHz
SSB - 7185, 14260, 21285 and 28310 kHz
